Day 4 Assignment

**Assignment1**:
**Agile Project Plan**: New Software Feature
**Project Name**: Enhancing User Profile Management
**Project Goal**: Improve user experience by adding new features to the user profile management
system.
**Project Team**:
- Product Owner
- Scrum Master
- Development Team

**Product Backlog:**

| SL No | Story ID | User Story | As a User I want to | Feature Dependency | Story Points | Feature Owner | Priority | Feature Type | Sprint (Two weeks) |
|---|---|---|---|---|---|---|---|---|---|
| **1** | **S1** | Profile Picture Upload | Upload a profile picture to personalize my account. | None | 5 | Scrum Master | High | New Requirement | 1 |
| **2** | **S2** | Bio Section | Add a bio to my profile to provide information about myself. | S1 | 3 | Scrum Master | Medium | New Requirement | 1 |
| **3** | **S3** | Social Media Integration | Link my social media accounts to my profile for easier sharing and networking. | None | 8 | Scrum Master | High | New Requirement | 2 |
| **4** | **S4** | Privacy Settings | Control visibility of my profile information to maintain privacy. | None | 5 | Scrum Master | Medium | New Requirement | 2 |
| **5** | **S5** | Email Notifications | Receive email notifications for profile updates and account activities. | None | 3 | Scrum Master | Medium | New Requirement | 3 |

**Notes:**
- Regular sprint planning meetings will be held to review and prioritize backlog items.
- Daily stand-up meetings will be conducted to ensure alignment and address any blockers.
- Continuous feedback from stakeholders will be solicited to refine requirements and prioritize features effectively.

**Assignment 2**:
Daily Standup Meeting Script:

[Scrum Master gathers the team in a designated area or via video call.]

**Scrum Master**: *Good morning, everyone! Let's start our daily standup. We'll go around the virtual room, and each person will share what they did yesterday, what they're doing today, and if there are any blockers. Let's keep it brief to stay focused. I'll begin.*

**Scrum Master**: *Yesterday, I talked with the Product Owner about our feature priorities. Today, I'll reach out to stakeholders for feedback on our timeline. No blockers for me.*

**Developer A**: *Yesterday, I finished adding the profile picture upload feature. Today, I'll start on the bio section. No blockers.*

**Developer B**: *Yesterday, I designed the bio section. Today, I'll work with Developer A to integrate it into the profile. No blockers*.

**Developer C**: *Yesterday, I researched social media integration. Today, I'll finalize the plan. No blockers.*

**Scrum Master**: *Thanks, team. Anyone have blockers or need help?*

**Developer D**: *I'm stuck on privacy settings. There are complexities I'm not sure how to handle.*

**Scrum Master**: *Thanks for sharing, Developer D. Let's schedule a quick brainstorm after the meeting. We'll figure it out together.*

**Developer D***: Yes, that would be really helpful. Thank you.*

**Scrum Master**: Okay, any other issues? No? Great. Let's tackle today together. Have a good one, everyone!

[The team members acknowledge, and the meeting concludes.]
